Address: Nagendra Nagar, Kurnool

Andhra Pradesh ,518003

INTRODUCTION

Through academic projects and CTF competitions, I am getting better at programming (Python, SQL, C++) and database security. Cybersecurity journals, university labs (like network forensics), and getting industry certifications (like udemy - cybersecurity+) are all ways that I am actively learning more about threat analysis and mitigation. Eager to use new technical skills and forensic methods to keep important systems safe in places where people work together

Academic Profile:

Education	Institution	Year	Percentage/GPA
Cybersecurity & digital Forensic	Sandip university, Trambakeshwar RD, Nashik, Maharashtra	2027	— —
Intermediate (MPC)	St Joseph's JR college, Sunkesula RD, Kurnool, Andhra Pradesh	2023	48.5
SSC-AP(State)	Sri Lakshmi high school, Kurnool	2021	10.0

Technical skills:

- **Security Tools**
Kali Linux | Metasploit | Burp Suite | Nessus | Wireshark | Snort
- **Forensics**
FTK Imager | Autopsy | Volatility | Cellebrite PA | Steghide
- **Programming**
Python (Security Scripting) | SQL | Bash/PowerShell | C++ | HTML & CSS | Java
- **Cloud/Systems**
AWS IAM | Azure Fundamentals | Windows/Linux Hardening
- **Concepts & Standards**
OWASP Top 10 | NIST CSF | MITRE ATT&CK | Chain-of-Custody
- **Certifications**
CompTIA Security+ (In Progress) | eJPT (Target 2027)

<u>Strengths</u>	<u>Hobbies</u>
Debugging Skills	CTF Competitions (e.g., TryHackMe)
Critical Thinking	Games(call of duty mobile, Hackers)
Tools Adaptability	Web Development
<i>Creativity & Analytical Skills</i>	Photography & travelling
